Altofts Juniors AFC Club Philosophy

''Altofts Juniors FC will aim to develop a **love** for our national game, alongside a **passion** for the club and local community. We will look to develop **technically excellent** players across a **variety of playing styles**; as a by-product this will help our players win, but never at the cost of any individual's development. This will take place within a **fair environment** without fear of failing. Players will become **socially equipped**, promoting problem solving, resilience and an understanding of healthy lifestyles as a priority. Altofts will provide **equal opportunities** for all, to aid each individual, to reach their maximum potential.''

Love: It's their game! Fun, enjoyable and informal. Let players develop a curiosity of the game to facilitate their learning.

Passion: Help players develop a passion for Altofts Juniors, Altofts Seniors and Altofts Ladies, supporting the retention of players, sign post older players to support the coaching of the younger players. Support events within and around the local community through a whole family approach to football and associated activities.

Technically Excellent: Provide players with a variety of opportunity to practice techniques they will use in the game; they need to be able to combine and adapt them to the situation. Encourage their curiosity and creativeness in order to discover new techniques.

Variety of Playing Styles: Players will experience different ways to play the game, including attacking and defending. This will aid their decision making and problem solving within the game.

Fair Environment and Equal Opportunities: Each player will receive fair opportunities to enhance their own personal development. We understand the need to cater for all individuals' needs and abilities. Match experience is gained by participating in all or part of a league match, a full development game or a combination of the two, in order to reach their minimum playing time available to that individual. (Minimal playing time will be appropriate to age and associated conditions)

Socially Equipped: We will develop teamwork with an open mind-set to learning and new things. We will encourage an active and healthy lifestyle.

Honorary President: Dave Parker

Chair: Tracy Missions Treasurer: Mark Hopwood Secretary: Catherine Jones Child Welfare Officer: Sarah Webber
